Attorney's Docket No.: 10223-006007

REMARKS

Applicant has canceled claims 1-24, and has added claims 25-28. Claim 25 recites a polypeptide containing at least two CH3 IgE domains and a CH4 IgE domain, wherein the CH4 IgE domain is heterologous to at least one of the CH3 IgE domains. Claims 26-28 recite, respectively, that the CH3 IgE domains are rat CH3 IgE domains or human CH3 IgE domains, or that the CH4 IgE domain is an opossum CH4 IgE domain. Support for these claims can be found in Applicant's specification at, for example, page 15, lines 10-12, page 19, lines 11-18, and page 26, lines 10-29. Thus, no new matter has been added.

Applicant respectfully requests that claims 25-28 be examined in view of the amendment to the claims. Please apply any charges or credits to deposit account 06-1050.

Respectfully submitted,

Date: September 29, 2003
